

SYMPOSIUM

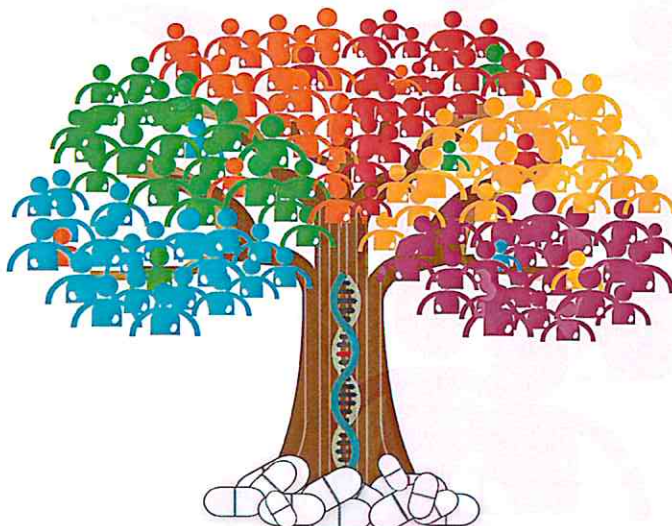

Wednesday 25th oktober 2017 from 14h00 - 16h00

13h30 Welcome & Registration

venue: Iers College, Janseniustraat 1 3000 Leuven

IS WHAT'S GOOD FOR MY NEIGHBOUR ALSO GOOD FOR ME?

CHANGING PARADIGMS IN THE TREATMENT OF RENAL
TRANSPLANTATION FROM YOUNG TO OLD

13h30 Welcome & Registration

Programme

Introduction

Dirk Kuypers (dept. Nephrology, UZ Leuven)

Variation in renal drug handling during health and disease

Roos Masereeuw (dept. Pharmacology, University Utrecht)

"How much is enough?" Variation in effect and side effects in relation to dose and exposure

Agnieszka Prytula (dept. Paediatric Nephrology, UZ Ghent)

"Children are not small adults": a critical appraisal of the translation of experience in adults towards paediatric renal transplantation

Luca Dello Strologo (dept. Pediatric Nephrology, Bambino Gesù Hospital, Rome)

"There is no one like you": Lessons learned from different immunosuppressive strategies in renal transplantation and options for a tailored treatment of the individual patient

Luuk Hilbrands (dept. Nephrology, Radboud University Medical Center, Nijmegen)

The symposium is followed by the public defense of the doctoral dissertation of Noël Knops entitled:

"Pharmacogenetic determinants of tacrolimus disposition and the effects in transplant organs and recipients".
